Waste reception in the Port of Sundsvall, Tunadal.

A need to delivery waste must be notified, by the form 'Document for delivering of waste', no later than 24 hours before arrival.

Delivery of waste

- Sorted waste and dangerous waste must be transported to the waste reception facilities.
- Liquid waste is collected at the shipside by sludge collecting vehicle.
- Containers with dangerous waste must be tightly sealed, free of defects and durably marked with their contents and the name of the vessel.
- Domestic waste must be well packaged.
- **The port has no reception facilities for expired pyrotechnics.**
- Additional rules for waste reception can be found in the Operation regulations on our website www.sundsvallshamn.se
- The vessel is responsible for the additional costs that arise or may arise if the conditions above are not met.
- **There are video surveillance of the reception facilities.**
